

MARTOR
Solingen**Cuttograf No. 69791**

- Deburring of "rounded" edges with revolving "contour-following" blades. This Deburring Tool with patented blade lock can also be used when an adapter is installed. These CURVEX Blades are AUTOMATICALLY adjusting to the optimal deburring angle, thus preventing undue damage to a work piece, otherwise costly to restore!

MARTOR
Solingen**Supertrim No. 87606**

- The palm-fit handle provides for non-fatiguing and non-bruising work. The blade-lock of this model is identical with that of the CUTTOGRAF.

MARTOR
Solingen**Combi No. 109137**

- Combi offers two further advantages: A highly simplified blade change routine plus the integrated metal tin (removable) to slit cardboard box adhesive tapes. Also for trouble free work with thick plastic sheeting, leather plastic box strapping, and even seat belts. Also available with stainless steel blade.

IMPORTANT: Strapping always should be cut with a diagonal stroke "GS-TESTED FOR SAFETY".
